## OBJECTIVE

---

Software Engineer Student, seeking for summer internship

## EDUCATION

---

**Software Engineering** , Esprit 2023 - Expected 2026

Relevant Coursework: Java, Linux, Symfony, CCNA and PL/SQL.

**Bachelor of Computer Science**, Faculty of Sciences of Sfax 2020 - 2023

Relevant Coursework: Java, JEE, Azure Cloud, PHP, and Agile.

## SKILLS

---

|                        |   |
|------------------------|---|
| <b>Web Development</b> | Next Js, React Js , Symfony 5 ,Java, Nest Js          |
| <b>Administration</b>  | Linux , CCNA , Oracle DataBase                        |
| <b>Soft Skills</b>     | Time Management, Quick learner, punctual, Team worker |

## EXPERIENCE

---

**FullStack JS Developer Intern** Feb 2023 - May 2023 Code Cooperation *Charguia 2, Tunis*

- Developed an innovative platform designed to streamline the annual assessment process for enterprises.
- Led the design and implementation of CI/CD pipelines using GitHub Actions.
- Developed a robust backend using NestJS, enabling efficient data processing and real-time analytics.
- Created user-friendly interfaces and dashboards using Next.js to facilitate easy navigation and use by employees at all levels.

## PROJECTS

---

### TriM - Smart Tech Application:

**Web Version:** Developed a microservice-based web application using Symfony 5 and MySQL for online consultations. This platform significantly enhances accessibility and efficiency for users seeking expert advice remotely, providing a seamless and user-friendly experience accessible via web browsers.

**Desktop Version:** Built a desktop application for the TriM project, utilizing JavaFX for the frontend interface and Java for backend functionalities. This desktop application provides users with a convenient alternative to the web version, allowing direct access to online consultations from their desktop computers.

**Animal Museum Quiz Application:** Created a quiz application for the Animal Museum using Next.js. This interactive platform engages visitors with quizzes about the museum's animal exhibits, providing an immersive learning experience. [Explore the quiz application here.](#)

## CERTIFICATIONS

---

- Microsoft Azure fundamentals
- Cisco Networking fundamentals
- Scrum foundation Professional
